

# UNDUMPED e-READER CARDS (USA)

- Latest update: 04th August 2013 -

**Status:** 1,182 cards have been dumped and “only” 11 are missing to complete the American set of cards! The missing set consist of incredibly rare cards: if you are able to get your hands on one of these; you are either rich or it's just a mirage! If you are rich, a dump to obtain information about the card would be a great idea!

## UNDUMPED POKÉMON-e TCG PROMOTIONAL CARDS: 10 items

The first ten cards of our dirty dozen are all from a mystical set named “Pokémon Sample”.

These ten cards were manufactured for retail stores so that the store staff can demonstrate the e-Reader games and features to customers.

The ten ugly monsters should have a nice value for the collectors market: there is no doubt this stuff is cached in some nuclear-war-bunker, and not available in online auctions.

At the moment, we can only assume that the data strips are the same as their standard version.

## UNDUMPED E3 2002 PROMOTIONAL CARDS: 1 item

The remaining card is wanted dead or alive; it's the alternative version of the “Kirby Contest” Cards, handed out at E3 2002.

There are three versions available of the “Kirby Contest” cards: it may either show a “1<sup>st</sup> Prize”, a “2<sup>nd</sup> Prize” or a “Not a Winner” message. The winning versions are very, very, very rare, but we are patient people, and our affiliates and their descendants will wait for this dump for the next couple of millenniums.
